

Combined

BRM & ERM Training

The course provides training in co-operation between bridge and engine-room, especially in critical situations, which are difficult to exercise onboard. The training can be tailor-made based on company procedures and accident records.

What you will learn during the training:

- ✓ How to obtain and maintain a high level of situational awareness
- ✓ Effective communication
- ✓ Leadership for safety
- ✓ Decision making
- ✓ Effective use of technology
- ✓ Adequate risk management
- ✓ Effective teamwork
- ✓ How to minimize human errors
- ✓ How to detect errors and prevent error chains from developing
